Full Featured, Truly Industrial and Scalable Platform

The Cinterion TC65i module offers scalability, compatibility and an easy path to future upgrades and added functionality as technology needs expand.

The award winning product features a flexible, easy to maintain and reliable mounting concept along with optimized size and performance. The refresher with Release 2 adds several additional features such as tunneling mode or a location API for the Java variant.

The product is based on an advanced processor design and the field proven and reliable Cinterion M2M software stack. The latest chip technology enables high performance, improved efficiency and the benefit of long-term availability. Like all Cinterion modules the TC65i includes approval (FTA) enabling use across the globe.

Full Featured, Truly Industrial and Scalable Platform

GPRS Class 12 – High symmetric data speed [86 kbps in uplink and downlink] for M2M applications.

RLS Monitoring – Remote Link Stability Monitoring providing network performance information which enables for example effective customized jamming detection.

Tunneling mode – A smart way that allows the microcontroller to control any device that has a serial interface like GPS receiver or NFC device through the module and enable transparent communication.

Java™ – Java offers easy and fast application development, a broad choice of tools, high code reusability, easy maintenance, a proven security concept, on-device debugging as well as multi-threading programming and program execution.

FOTA – The new TC65i-X comes with an extended memory that allows customers to use the additional memory also for integrated Firmware Update Over The Air (FOTA).

Gemalto M2M Support includes:

> Personal design-in consulting for hardware and software
> Extensive RF test capabilities
> GCF/PTCRB conform pretests to validate approval readiness
> Regular training workshops

Local engineers, a competent helpdesk, a dedicated team of R&D specialists and an advanced development center are the hallmarks of our leading support offer.
