Partner Integration Module: Protiva OTP
Partner Integration Module: Protiva OTP

This technical training for Gemalto partners is a practical hands-on course showcasing our One-Time Password strong authentication products.

Duration: 1 week  Location: on-line  Course fee: 400€
Course objectives

At the end of this Partner Integration Module, you will:

- Understand strong authentication challenges
- Understand the IDConfirm 1000, IDProve 300 and IDProve 500
- Understand each component of the One-Time Password strong authentication solution
- Know how to install IDConfirm 1000
- Know how to manage the IDConfirm 1000 settings
- Know how to integrate IDConfirm 1000 into existing infrastructures
Course principle

This Partner Integration Module is fully delivered on-line with lectures, videos and practices on virtual environments.

To attend a training session, you need to order the training through your Partner Webstore account (product ref. A1398031A).

- Upon ordering, you receive a confirmation and a training kit containing 2 IDPrime .NET cards, an IDBridge CT40 card reader and an IDBridge K30 with SIM format embedded .NET card.

- Each session starts with an introduction performed by the instructor through a live meeting.

- You follow the on-line training course at your own pace.

- Instructor stay available for support via email.

- Each session ends with a live meeting performed by the instructor and a certification quiz.
