## International Payment Scheme Contactless Payment Seminar

Contactless payment is expected to become one of the dominant modes of transaction within the next couple of years with already large deployment in the US, numerous projects in Asia and pilots in Europe.

During this two-day seminar you will study contactless implementations defined by MasterCard and Visa (MasterCard PayPass, Visa Contactless) and focus on the main challenges when launching a contactless payment program.

### Objectives

At the end of the training, you will:

- **Have an overview of the current contactless payment programs implemented by Visa, MasterCard and EMV**
- **Evaluate the impact of contactless migration**
- **Identify and quantify the tasks needed to launch a contactless payment program**

### Key topics

- **MasterCard PayPass contactless payment implementation**
- **Visa Contactless payment implementation**
- **Contactless security level defined by Visa and by MasterCard**
- **EMV Entry Point Specifications**
- **Impacts and scenarios of migration**

### Who should attend

People involved in the smart card activity:

- Marketing managers
- Technical project managers
- Banking Project managers
- Product managers

### Each session consists of

- A complete course manual

### Pre-requisites

- Basic knowledge about smart cards.
- This course is held in English. On customer request a session in French can be organized.

**Duration:** 2 days

**Location:** Gemalto premises<sup>1</sup>

**Course fee:** € 1499 per person<sup>2</sup>

<sup>1</sup> All training courses can be held on-site at customer premises, or at one of the Gemalto training centers. Please contact us for more details.

<sup>2</sup> Price does not include any taxes
