Fast, easy, accurate ID management

Thales Gemalto Double-Sided ID Card Reader CR5400

Identity & Biometric Solutions

Counterfeit IDs are everywhere. ID fraud occurs every day, costing victims and companies millions of dollars. The Gemalto Double-Sided ID Card Reader CR5400 helps stop fraud at the door. It is an easy way to and cost effective method to improve data accuracy, automate onboarding, reduce human error, improve privacy and comply with GDPR and money laundering regulations.

Fast & easy to use

Authenticate ID’s in a fully automated and integrated into your business process. The Gemalto Double-Sided ID Card Reader CR5400 requires minimal training and its lightweight, compact design takes minimal counter space.

• Accepts driver’s licences and ID cards inserted in any direction - no fiddling to place the card.
• Automatically ejects cards, even when power is removed.
• Processes documents in less than four seconds.
• Anti-glare removal from shiny laminates for more accurate photo and data extraction.
• USB powered, lightweight 2.2 lb., small footprint 6” x 4”.

Ideal for your integrations.

For no additional costs or royalties, value-added resellers receive our advanced software development kit [SDK]. The software includes many flexible control variables and features, such as:

• 1D and 2D barcode decoders
• AAMVA PDF417 fully formatted data output
• Advanced face finding algorithm allows the ID picture to be printed on visitor badges
• Programs for easily testing hardware
• Optional image access in BMP, PNG, or JPEG formats

Improving service. Enhancing security
