

February 2016

A month of forward thinking

Last month we offered our predictions for the future of the IoT. This month, we're excited to share our recently published [Connected Living 2025 Report](#), which examines connectivity expectations of 1200 young people from around the world. [The results reveal forward thinking attitudes](#) on everything from connected cars and wearable health devices to mobile authentication and cashless societies. We're looking forward to seeing the latest innovations in these sectors at Mobile World Congress. Please [visit us in Hall 5, Stand 5A80](#) to experience our IoT, eCommerce and mPayment demos. Or request a consultation to learn how Gemalto can help you leverage the power of the IoT to reach your business goals.

Best regards,

Manfred Kube
Head of M2M Segment and Offer Marketing

Gemalto named one of the top five IoT security vendors

Leading industry research firm Technavio has named [Gemalto as one of the top five IoT security vendors in the industry](#). Gemalto was selected for its comprehensive offering of hardware modules, reliable platforms and secure service solutions that connect and protect any and all M2M and IoT devices.

European 112 Day celebrated on 211

On February 11 EU member states celebrated "European 112 Day", a day dedicated to raising awareness of Europe's single emergency services number. Regulations require all new cars in the EU to be equipped with life saving eCall technology by April 2018. Read our eCall brochure to learn how [Gemalto's award-winning solution](#) can help you meet that goal.

➔ [Download our eCall brochure here!](#)

Tell us your predictions for the IoT!

We've offered our take and shared consumer thoughts, now we'd like to hear from you. What do think is in store for M2M and the IoT? [Take this quick trend spotting survey](#) and tell us your predictions and we'll publish the results in a future newsletter.
