Forward-Looking Statements

This communication contains certain statements that are neither reported financial results nor other historical information and other statements concerning Gemalto. These statements include financial projections and estimates and their underlying assumptions, statements regarding plans, objectives and expectations with respect to future operations, events, products and services and future performance. Forward-looking statements are generally identified by the words "expects", "anticipates", "believes", "intends", "estimates" and similar expressions. These and other information and statements contained in this communication constitute forward-looking statements for purposes of applicable securities laws. Although management of the company believes that the expectations reflected in the forward-looking statements are reasonable, investors and security holders are cautioned that forward-looking information and statements are subject to various risks and uncertainties, many of which are difficult to predict and generally beyond the control of the companies, that could cause actual results and developments to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements, and the companies cannot guarantee future results, levels of activity, performance or achievements. Factors that could cause actual results to differ materially from those estimated by the forward-looking statements contained in this communication include, but are not limited to: the ability of the company's to integrate according to expectations; the ability of the company to achieve the expected synergies from the combination; trends in wireless communication and mobile commerce markets; the company's ability to develop new technology and the effects of competing technologies developed and expected intense competition generally in the companies' main markets; profitability of expansion strategy; challenges to or loss of intellectual property rights; ability to establish and maintain strategic relationships in their major businesses; ability to develop and take advantage of new software and services; the effect of the combination and any future acquisitions and investments on the companies' share prices; and changes in global, political, economic, business, competitive, market and regulatory forces. Moreover, neither the companies nor any other person assumes responsibility for the accuracy and completeness of such forward-looking statements. The forward-looking statements contained in this communication speak only as of the date of this communication and the companies are under no duty, and do not undertake, to update any of the forward-looking statements after this date to conform such statements to actual results, to reflect the occurrence of anticipated results or otherwise.

★ **Overview**

Olivier Piou, CEO

★ Financial Results

★ Outlook

First quarter 2008 highlights

- ✦ Revenue up by 12% at € 388 million
- ✦ Good performance with solid fundamentals in all main segments
- ✦ Synergy initiatives are progressing well
- ✦ Markets remain robust and attractive
- ✦ New wins in digital security

Revenue variations are stated **at constant exchange rates** and by reference to **2007 first quarter revenue**

Market developments

“ We see momentum in the growing demand for advanced SIM offers. Mobile operators continue to show strong interest in utilizing our solutions to enrich the customer experience. Overall market conditions are more stable and there is a strong focus on developing service offers.

Philippe Vallée
EVP Telecoms

Philippe Cambriel
EVP Secure Transactions

“ EMV rollout is very active in many countries across the globe. Demand for high-end DDA and dual interface cards provide a strong basis for mix improvement. We are vigorously pursuing many opportunities in personalization services and innovative solutions.”

“ Government projects carry on at a good pace in both deployments and the issue of new tenders. IAM markets also continue to gain momentum, particularly in Europe. Our partner network is growing and will greatly add to our indirect sales capabilities.”

Jacques Seneca
EVP Security

DDA = Dynamic Data Authentication; Dual Interface = contact and contactless; IAM = Identity & Access Management

Advancing digital security

- ✦ Contract wins in all main segments
- ✦ New device and service introductions, plus numerous pilots globally
- ✦ Expanding network of partners and technology collaborators
- ✦ A key voice in shaping industry standards and eco-systems
- ✦ Additional growth opportunities including incubation cells and bolt-on acquisitions

Outlook

Our 2009 objective of 10% adjusted operating margin remains unchanged.

In 2008 we will benefit from the robust market demand we currently experience in our main segments. Our leadership position is generating commercial and operational advantages and we are encouraged by the progress in our performance. We currently see no evidence of the global financial turmoil impacting our activities, aside from the evolution in the average exchange rates between the Euro and other currencies. Growth and increased profitability will be driven, besides higher synergies, by the return to growth in Mobile Communications, the return to profit in Secure Transactions, and the ramp up of our recent contract wins in Security.

The successful completion of our 2006-2009 plan will create a strong foundation for our next phase of development

- ✦ World Leader in Digital Security ✦
- ✦ Markets in Strong Development ✦
- ✦ Unique Technology Portfolio ✦
 - ✦ Blue Chip Customers ✦
- ✦ Large Free Float and Robust Financials ✦
- ✦ A Business Model with Strong Leverage on Growth ✦
