

Gemalto full year 2006 results

- Revenue¹ at €1.7 billion, comparable with last year
- Operating margin¹ at 3.5%
- Initial synergy benefits realized
- Profit impacted by the review of certain deferred tax assets for €47.5 million
- Strong net cash at €396 million

Amsterdam, March 15, 2007 - Gemalto (Euronext NL0000400653 - GTO), a leader in digital security, today announced its results for the full year ended December 31, 2006.

Highlights of the Adjusted pro forma income statement¹ (all figures below are at historical exchange rates):

€ in millions	FY 2005	FY 2006	Year-on-year change ²
Net sales	1,724.4	1,698.2	(1.5)%
Gross profit	567.5	503.0	(11.4)%
<i>Gross margin (%)</i>	<i>32.9%</i>	<i>29.6%</i>	<i>(3.3) ppts</i>
Operating expenses ³	443.4	442.2	(0.3)%
Operating income	127.0	59.9	(52.8)%
<i>Operating margin (%)</i>	<i>7.4%</i>	<i>3.5%</i>	<i>(3.9) ppts</i>
Profit for the period	135.7	1.6	NM
Basic earnings per share (euros) ⁴	<i>1.51</i>	<i>0.02</i>	NM

The above mentioned adjusted measures exclude business combination accounting entries, as well as one-off expenses and reorganization charges incurred in connection with the combination with Gemplus. They are not meant to be considered in isolation or as a substitute for comparable IFRS measures, and should be read only in conjunction with the summary consolidated financial information prepared in accordance with IFRS (unaudited) provided in appendix 2. Gemalto believes Adjusted financial measures are helpful in assessing its past financial performance and its future results. The 2006 annual report including the audited financial statements will be available on May 7, 2007.

Olivier Piou, Chief Executive Officer, commented: "2006 was a foundation year for Gemalto: we successfully completed our merger and launched our vision of digital security. We are now focused on the opportunities identified in this area and our numerous contracts wins in 2006 for e-passport and e-identity programs offer great support to our strategic vision: Gemalto's customer relationships and technological leadership provide a tremendous base for the future. Initial synergy realization is in line with our expectations: we are committed to maximizing operating efficiencies to reach our 2009 objectives."

¹ Prepared on an Adjusted pro forma basis, reflecting the combined activity of Gemalto and Gemplus over the full year, excluding one-off expenses incurred in connection with the combination with Gemplus, reorganization charges and charges resulting from the accounting treatment of the transaction, and assuming that the combination had taken place as of January 1, 2005.

² At historical (reported) exchange rates.

³ Operating expenses include research & engineering expenses, sales & marketing expenses and general & administrative expenses; they do not include other operating income & expenses, net.

⁴ Determined on the basis of the number of Gemalto shares outstanding as of December 31, 2006

Basis of preparation of financial information

The Company's consolidated income statements, balance sheets, statements of shareholders equity and cash flow statements (unaudited) presented in appendix 2 were prepared in accordance with International Financial Reporting Standard (IFRS).

The pro forma income statement (unaudited) for the full year 2006 has been prepared assuming that the combination with Gemplus had taken place as of January 1, 2005, allowing the Group to present a relevant comparison with the full year of 2005. The one-off, combination related items and the reorganization charges incurred in the second half of 2006 are therefore charged to the full year 2005 pro forma income statement, so that the full year 2006 income statement only reflects the recurring intangible asset amortization charges resulting from the accounting treatment of the transaction, as well as the additional stock compensation charge arising from it.

Additional financial information on an Adjusted pro forma basis (unaudited) is presented that is not in conformity with IFRS, in particular the presentation of cost of sales, operating expenses and operating income, operating margin and earnings per share excluding one-off combination related expenses, reorganization charges and charges resulting from the accounting treatment of the transaction. Charges resulting from the accounting treatment of the transaction consist of amortization of inventory step-up, additional stock-based compensation due to the revaluation of Gemplus' stock options as of combination date, amortization and impairment of intangible assets. One-off combination related expenses consist of professional advisory services incurred in connection with the integration, new Gemalto brand and logo creation and worldwide registration, as well as impairment charges related to capitalized development costs on projects which are redundant with existing products or technologies available in Gemplus. Reorganization charges consist of cost incurred in connection with headcount reductions in the support functions, the consolidation of manufacturing and office sites (including asset write-offs and transfer cost, severance cost, lease termination and building refurbishment cost) as well as the rationalization and harmonization of the product and service portfolio. The Company believes that this information, which is not in conformity with IFRS, is helpful supplemental information in order to better assess its past and future performance. In addition, the Company's management uses this information in its own planning and in assessment of its operating performance. This information provided by the Company may not be comparable to similarly titled measures employed by other companies.

The Company provides reconciliations between the pro forma and Adjusted pro forma income statements which are presented in tables at the end of this press release. The IFRS consolidated income statement for the full year 2006 (unaudited) shows an operating loss of €34.2 million and a loss for the period of €73.4 million, including €36.6 million of amortization and impairment of intangible assets, €19.5 million of reorganization expenses, €15.2 million of amortization of inventory step-up and €8.5 million of combination related expenses. The pro forma income statement shows operating income of €24.9 million and a loss for the period of €23.6 million, including €32.2 million of amortization and impairment of intangible assets.

For a more detailed description of adjustments made to the IFRS consolidated income statement, please refer to DESCRIPTION OF ADJUSTED AND PRO FORMA MEASURES at the end of this press release.

All comparisons in this document are at historical (reported) exchange rates, unless stated otherwise, and describe the evolution of the Adjusted pro forma full year 2006 information compared to that of the full year 2005.

Fluctuations in currency exchange rates against the Euro have an impact on the Euro value of Group revenues. Comparisons at constant exchange rates aim at neutralizing this translation effect on the analysis of the Group operations. For this purpose, Gemalto compares its historical figures for the current year against the prior year's figures, assuming that the exchange rate of the Euro against such other currencies in the prior year would have been the same as in the current year.

Adjusted pro forma income statement⁵ analysis

Extract of the Adjusted pro forma income statement:

	Year ended December 31, 2005		Year ended December 31, 2006		% change ²
	€ in millions	As a % of sales	€ in millions	As a % of sales	
Revenue ⁶	1,724.4		1,698.2		(1.5)%
Gross profit	567.5	32.9%	503.0	29.6%	(11.4)%
EBITDA ⁷	196.0	11.4%	130.6	7.7%	(33.4)%
Operating expenses ²	443.4	25.7%	442.2	26.0%	(0.3)%
Operating income	127.0	7.4%	59.9	3.5%	(52.8)%
Profit for the period	135.7	7.9%	1.6	0.1%	NM

At constant exchange rates, revenue was down 1%, reflecting varying performance between market segments. Solid revenue growth in Identity & Security and Secure Transactions was offset by the effect of extreme price pressure on Mobile Communication revenue. After adjusting for the acquisition of Setec in June 2005, revenue was down 3% at constant exchange rates.

On a geographic basis and at constant exchange rates, revenue was up 6% in Asia, driven by Secure Transactions and Identity & Security. In EMEA⁸, revenue was up 1%, with strong growth in Identity & Security offsetting lower revenue in Mobile Communication. In the Americas, revenue was down 12%, on lower revenue in Mobile Communication.

Gross margin was 29.6% compared with 32.9% in 2005, reflecting the effect of price declines in Mobile Communication and, to a lesser extent, lower margins in Secure Transactions as competition intensified in large EMV migration tenders.

Operating income for the first half 2006 benefited from unusually high patent licensing revenue and margin and certain positive one-offs. Excluding these items, operating profitability for the second half improved as

⁵ Prepared on an Adjusted pro forma basis, reflecting the combined activity of Gemalto and Gemplus over the full year, excluding one-off expenses incurred in connection with the combination with Gemplus, reorganization charges and charges resulting from the accounting treatment of the transaction, and assuming that the combination had taken place as of January 1, 2005.

⁶ Setec consolidated as of June 1, 2005.

⁷ EBITDA is defined as operating income plus depreciation (€61.2 million in FY 2006 vs. €58.5 million in FY 2005) and amortization expenses (€9.5 million in FY 2006 vs. €10.5 million in FY 2005). These amounts exclude amortization and impairment charges related to the intangibles assets identified pursuant to IFRS 3 "Business Combination".

⁸ Europe, Middle East, Africa

compared with the first half, reflecting the usual seasonal pattern, a more favourable competitive environment in Mobile Communication and the first positive effects of synergies and cost savings primarily in the support functions.

Operating expenses, stable overall year on year at historical exchange rates, decreased in the second half compared with the first half by around €10 million (4.5%) at constant exchange rates, as a result of cost reduction actions engaged following completion of the combination. Compared with 2005, general & administrative expenses were down 4.6% and research & engineering expenses were down 2.2% despite significant resources required to accelerate convergence of products and services. Sales & marketing expenses were up 3.2%, as field marketing and technical support resources in the areas were deployed to reinforce service to customers and promote digital security solutions.

Consequently, operating income was €59.9 million and operating margin was 3.5% compared with 7.4% in 2005.

Financial income was €8.4 million. The income tax charge amounted to €65.7 million of which €47.5 million is related to the review of the value of deferred tax assets in certain countries. As a result, profit for the period was €1.6 million.

Balance sheet and estimated pro forma cash flow

On an estimated pro forma basis, free cash flow⁹ was an outflow of €20 million, including capital expenditure of €71 million and payments of costs incurred in connection with the preparation and execution of the combination of approximately €27 million.

Working capital requirement decreased substantially during the second half: over the full year, the cash used in the increase in working capital requirement amounted to an estimated €24 million, reflecting a marked improvement in the second half compared with the first half. Capital expenditure also decreased in the second half to €30 million, from €41 million in the first half, mostly as a direct benefit of the combination.

Net cash position improved by €52 million in the second half of the year to €396 million.

After the distribution of reserves (€164 million) to the Gemplus shareholders prior to the execution of the first step of the combination, cash and cash equivalents remain strong at €430 million.

The €310 million year on year increase in goodwill represents the excess of the value of the new Gemalto shares issued in exchange for the contribution by TPG and the Quandt family entities of their interest in Gemplus over the value of the identified assets and liabilities acquired. Following this contribution, which took place on June 2, 2006, Gemalto launched a public exchange offer for the remaining Gemplus shares, which was closed on November 8, 2006, and subsequently initiated a sell-out process in compliance with the Luxemburg regulation. The excess of the value of the new Gemalto shares issued in exchange for the Gemplus shares tendered in the exchange offer and the sell out process as of December 31, 2006, over the value of the interest thus acquired in the net assets of Gemplus, representing an amount of €200 million, was recorded as a reduction of Gemalto's equity.

⁹ Free cash flow is defined as net cash flow from operating activities less the purchase of property, plant and equipment and other investments related to the operating cycle (excluding acquisitions and financial investments). The pro forma free cash flow is the combination of Axalto and Gemplus free cash flow for the full year ended December 31, 2006.

As a result, Gemalto held 97.74% of the Gemplus shares at December 31, 2006. It currently holds 100%.

Segment information¹⁰

Mobile Communication

	Year ended December 31, 2005		Year ended December 31, 2006		% change ²
	€ in millions	As a % of revenue	€ in millions	As a % of revenue	
Revenue	1,090.6		993.8		(8.9)%
Gross profit	413.7	37.9%	334.3	33.6%	(19.2)%
Operating expenses	267.3	24.5%	256.1	25.8%	(4.2)%
Operating income	146.9	13.5%	77.6	7.8%	(47.2)%

At constant exchange rates, Mobile Communication revenue was down 9% as volume growth did not compensate for the unusually strong price pressure in the first part of the year.

Deliveries of SIM cards rose 33%, driven by robust demand in Asia and in EMEA. Deliveries in the Americas were flat compared with the excellent performance in 2005.

The average SIM card selling price was down 31% at constant exchange rates compared to the previous year, reflecting the very strong pressure on selling prices during the first part of the year, due to intense competition and an unfavourable evolution of the regional contribution to total deliveries. However, the year-on-year price decrease improved throughout the year from 34% in the first half year to 32% in the third quarter and 25% in the fourth quarter.

SIM card volume growth was driven by strong demand in emerging countries boosted by new subscribers and churn among operators' existing subscriber bases. The share in total deliveries of entry and mid-range products sold in these countries at lower prices and margins increased to the detriment of high-end solutions: this was a major factor for the strong decline in the worldwide average selling price. Product mix improvement was less marked in the first three quarters than in the two previous years, but regained momentum in the fourth quarter, from seasonal peak in demand for high end devices and services in EMEA and the Americas.

The decrease in gross margin was the consequence of the unfavourable factors described above, which outweighed productivity improvements and the initial cost savings on purchases achieved in the last months of the year resulting from the combination.

Operating expenses were down 4% reflecting lower general & administrative expenses. Sales & marketing expenses were almost stable, as marketing and technical field resources were maintained to support customers migrating to the merged products and services portfolio and to high-end products.

Consequently, operating income was €77.6 million and operating margin was 7.8% compared with 13.5% in 2005.

¹⁰ All segment information provided in this press release is on an adjusted pro forma basis, reflecting the combined activity of Gemalto and Gemplus over the full year, excluding one-off expenses incurred in connection with the combination with Gemplus, reorganization charges and charges resulting from the accounting treatment of the transaction.

Secure Transactions (Financial Services and pay-TV)

	Year ended December 31, 2005		Year ended December 31, 2006		% change ²
	€ in millions	As a % of revenue	€ in millions	As a % of revenue	
Revenue	359.8		391.7		+8.9%
Gross profit	82.1	22.8%	77.8	19.9%	(5.2)%
Operating expenses	81.2	22.6%	88.1	22.5%	+8.5%
Operating income (loss)	2.0	0.6%	(10.4)	(2.7)%	NM

At constant exchange rates, revenue was up 9%, led by gains in EMV¹¹ payment products and personalization services, especially in Latin America, and strong growth in pay-TV. After adjusting for the acquisition of Setec in June 2005, revenue was up 7% at constant exchange rates.

Deliveries of microprocessor cards were up 20%, driven by on-going EMV deployment, primarily in North Asia, Latin America, Turkey and Russia.

Average selling prices decreased reflecting more intense competition in certain high growth markets migrating to EMV, the weight of which increased significantly during the year in total segment revenue.

Gross margin decreased as a result of this expansion, as the necessary adjustments to the cost base will materialize progressively.

As a percentage of sales, operating expenses were stable. After adjustment for the reversal in 2005 of a 5.2 million euros litigation provision booked previously, they decreased by 1.5 percentage point.

ID & Security

	Year ended December 31, 2005		Year ended December 31, 2006		% change ²
	€ in millions	As a % of revenue	€ in millions	As a % of revenue	
Revenue	140.8		203.4		+44.5%
Gross profit	50.8	36.1%	72.3	35.6%	+42.3%
Operating expenses	69.8	49.6%	78.1	38.4%	+11.9%
Operating loss	(19.0)	(13.5)%	(5.9)	(2.9)%	NM

At constant exchange rates, revenue was up 45%, driven by strong sales of identity solutions for e-passports and healthcare, as well as by increased IP licensing activity. After adjusting for the acquisition of Setec in June 2005, revenue was up 32% at constant exchange rates.

Deliveries of microprocessor products (mainly contactless, high-end cards and e-passports) were up 81%, fuelled by the initial deployments of large scale identity programs, mainly in Europe.

Despite lower margin in the ID business reflecting the effects of the early stages of the rollout of e-passports in Europe, gross margin was stable owing to high revenue derived from patent licensing contracts in the first half of the year.

¹¹ EMV is a jointly defined set of specifications adopted by Europay, MasterCard and Visa for the migration of bank cards to smart card technology.

As a percentage of sales, operating expenses were down by 11 percentage points. While general & administrative expenses were down 3%, research & engineering expenses rose 12% and sales & marketing expenses grew 18%, at a much lower pace than revenue, to support the segment's growth.

Consequently, operating result improved significantly compared with 2005.

Public Telephony

	Year ended December 31, 2005		Year ended December 31, 2006		% change ²
	€ in millions	<i>As a % of revenue</i>	€ in millions	<i>As a % of revenue</i>	
Revenue	73.2		58.8		(19.6)%
Gross profit	5.0	<i>6.8%</i>	6.5	11.1%	+30.0%
Operating expenses	11.3	<i>15.4%</i>	6.4	10.8%	(43.4)%
Operating income (loss)	(5.8)	<i>(7.9)%</i>	0.1	0.1%	NM

Memory cards for Public Telephony contribute 3% of Group revenue reflecting the broad usage of mobile telephony worldwide.

Improvement in gross margin and decrease in operating expenses reflect a selective approach to tender responses and the rationalization of the support structure. Consequently, operating result was breakeven.

Point-of-Sale Terminals

	Year ended December 31, 2005		Year ended December 31, 2006		% change ²
	€ in millions	<i>As a % of sales</i>	€ in millions	<i>As a % of sales</i>	
Revenue	60.1		50.4		(16.1)%
Gross profit	15.9	<i>26.5%</i>	12.1	23.9%	(23.9)%
Operating expenses	13.8	<i>23.0%</i>	13.5	26.9%	(2.2)%
Operating income (loss)	2.9	<i>4.8%</i>	(1.4)	(2.8)%	NM

2006 was a transition year when the segment prepared for the introduction of a new range of products based on a new technology platform, which was successfully launched in November. Inventory depletion by distributors led to lower revenue for the year, while development and marketing efforts to prepare the new product range lead to an increase of operating expenses as a percentage of revenue.

Outlook

In the first half of 2007, demand in Mobile Communication will be driven by emerging countries and the revenue profile is therefore expected to consist primarily of entry and mid-range products. Furthermore, Gemalto's operating margin¹² will not benefit from the unusually high patent licensing revenue and positive one-off items booked in the same period of 2006. Cost synergies from the combination are materializing progressively in line with the Company's expectations, but they will not be sufficient to offset the adverse effect on the operating margin¹² of the strong price decline of the last twelve months.

In the second half of 2007, operating margin¹² should reflect the usual favorable seasonal pattern and the increasing contribution of the first digital security solutions deployments. It will also benefit from additional cost synergies from the combination.

Gemalto continues to anticipate sustained demand in all of its key markets. It will continue to proactively make the necessary adjustments to its cost base and remains determined to reach its stated objective of an operating margin¹² above 10% in 2009.

Financial reporting policy

In 2007, following a review of the Group's communications and reporting processes in light of the recent delisting of Gemplus from Euronext Paris and from the Nasdaq, and taking into consideration the progressive entry into force of the Transparency Directive governing financial disclosure requirements for listed companies in the European Union, the Company reconsidered its previously stated intention to report quarterly earnings. As a consequence, Gemalto will continue its past financial reporting policy and publish interim financial statements for the first half of the financial year ending on June 30 and full financial statements for the year ending on December 31. It will report revenues for the quarters ending on March 31 and September 30.

Reporting calendar

First quarter 2007 revenue will be reported on May 3, 2007, before the opening of Euronext Paris.

The annual shareholders meeting will be held in Amsterdam on May 22, 2007.

¹² Prepared on an Adjusted pro forma basis, reflecting the combined activity of Gemalto and Gemplus over the full year, excluding one-off expenses incurred in connection with the combination with Gemplus, reorganization charges and charges resulting from the accounting treatment of the transaction, and assuming that the combination had taken place as of January 1, 2005.

**GEMALTO
FULL YEAR 2006 FINANCIAL RESULTS
DESCRIPTION OF ADJUSTED AND PRO FORMA MEASURES**

Due to the combination with Gemplus, Gemalto's financial statements have undergone significant change, due in particular to the accounting treatment of this transaction in accordance with IFRS 3 "Business Combination". To supplement the financial statements presented on an IFRS basis, the Group presents the pro forma and Adjusted pro forma information described in the table below.

Pro forma measures

The pro forma income statement for the full year 2006 has been prepared assuming that the combination had taken place as of January 1, 2005, allowing the Group to present it in comparison with the full year 2005. The one-off, combination related items are therefore charged to the full year 2005 pro forma income statement, so that the full year 2006 income statement only reflects the recurring intangible asset amortization charge resulting from the Purchase Price Allocation and the additional stock-based compensation charge.

Adjusted measures

Adjusted measures exclude certain business combination accounting entries, and expenses directly incurred in connection with the combination with Gemplus, that the Group believes are helpful in understanding its past financial performance and its future results. Adjusted financial measures are not meant to be considered in isolation or as a substitute for comparable IFRS measures, and should be read only in conjunction with consolidated financial statements prepared in accordance with IFRS. Management regularly uses these supplemental adjusted financial measures internally to understand, manage and evaluate the business and take operating decisions. These adjusted measures are among the primary factors management uses in planning for and forecasting future periods. Compensation of executives is based in part on the performance of the business based on these adjusted measures. Adjusted financial measures reflect adjustments based on the following items, as well as the related income tax effect:

- **Amortization of inventory step-up:** IFRS 3 "Business Combination" requires Gemalto to value work-in progress and finished goods assumed in connection with the combination at net realizable value (the estimated revenue derived from the future sale of these goods less expected selling cost). Therefore, the value of this inventory in the books of Gemplus on combination date was adjusted accordingly (step-up). Thus, subsequent sales of the work-in-progress and finished products carried in Gemplus' inventory at the time of the combination generate a lower margin than if they were manufactured after the acquisition, all other factors being equal. The amortization expense related to this step up is therefore disclosed in the income statement under a separate line below Cost of Sales. The adjustment, eliminating amortization of inventory step-up, is intended to restore the normal margin of such sales. The Group believes this adjustment is useful to investors as a measure of the ongoing performance of its business.

- **Additional stock-based compensation charge:** As prescribed by IFRS 2 “Share-based payment” and IFRS 3 “Business Combination”, vested and unvested stock options or awards granted by an acquirer in exchange for stock options or awards held by employees of the purchased company, or any substantially equivalent commitment by the acquirer to assume the obligations of the acquirer with regards to stock options granted to the latter’s employees, as is the case for Gemalto under the Combination Agreement, shall be considered to be part of the purchase price for the acquirer, and the fair value (at the effective date of the acquisition or merger) of the new (acquirer) awards shall be included in the purchase price. It leads to increase the compensation charge related to stock-options granted by Gemplus prior to the acquisition. The adjustment, eliminating the additional stock-based compensation charge, is intended to reflect the compensation charge that Gemplus would expense if the company continued to operate on a standalone basis. The Group believes this adjustment is useful to investors as a measure of the ongoing performance of its business.
- **Amortization and impairment of intangible assets:** amortization and impairment of intangible assets created as a result of the combination with Gemplus have been excluded from the adjusted profit for the period. The Group believes this is useful because, prior to this combination in the second quarter of fiscal 2006, it did not incur significant charges of this nature, and the exclusion of this amount helps investors understand the evolution of IFRS operating expenses in periods subsequent to the combination with Gemplus. Investors should note that the use of intangible assets contributed to revenue earned during the period and will contribute to future revenue generation and that these amortization expenses will be recurring.
- **Combination related charges:** In the last months, Gemalto incurred material expenses in connection with the combination with Gemplus, which it would not have otherwise incurred. Combination related charges consist of professional advisory services incurred in connection with the integration, new Gemalto brand and logo creation and worldwide registration, as well as impairment charges related to capitalized development costs on projects which are redundant with existing products or technologies available in Gemplus. The Group expects to continue to incur integration-related professional services in the coming months. Gemalto also determined that its investment in a listed company was impaired as a consequence of the combination with Gemplus. The related impairment charge was recorded in Financial income (loss) in the period. Gemalto believes it is useful for investors to understand the effect of these expenses on its cost structure.
- **Reorganization charges:** charges incurred in connection with headcount reductions in the support functions, the consolidation of manufacturing and office sites (including asset write-offs and transfer cost, severance cost, lease termination and building refurbishment cost) and the rationalization and harmonization of the product and service portfolio.

Summary

Gemalto provides three sets of income statements:

- IFRS consolidated income statement, pursuant to its regulatory obligations
- Pro forma income statement
- Adjusted pro forma income statement

<p>Gemalto IFRS consolidated income statement</p>	<ul style="list-style-type: none"> - Includes Gemplus income statement consolidated as from June 2, 2006, date on which the first step of the combination between Gemalto and Gemplus was executed. - Includes all charges resulting from the accounting treatment of the combination with Gemplus (amortization and impairment of intangible assets, additional stock-based compensation), and one-off expenses and reorganization charges incurred in connection with the combination (combination related charges).
<p>Gemalto pro forma income statement</p> <p>Basis of presentation and assumptions for preparation are described in note 6 to the condensed consolidated interim financial statements for the period ended June 30, 2006, published on September 13, 2006.</p>	<ul style="list-style-type: none"> - Includes Gemplus income statement for the full reported period (12 months). - Combination assumed to have taken place as of January 1, 2005. - Consequently, one-off expenses and reorganization charges incurred in connection with the combination with Gemplus (combination related charges) are booked in fiscal year 2005. - Recurring charges resulting from the accounting treatment of the combination with Gemplus (amortization of intangible assets, additional stock-based compensation) are booked in fiscal year 2005 and 2006 according to the amortization schedule set as if the combination had taken place on January 1, 2005.
<p>Gemalto Adjusted pro forma income statement</p>	<ul style="list-style-type: none"> - Includes Gemplus income statement for the full reported period (12 months). - Combination assumed to have taken place as of January 1, 2005. - Excludes one-off expenses and reorganization charges incurred in connection with the combination with Gemplus (combination related charges) and all charges resulting from the accounting treatment of the combination.

The full year 2005 and 2006 pro forma income statements established in accordance with IFRS are included in the appendix 1 at the end of this press release.

Conference call

Gemalto will hold an analysts and investors meeting to present its financial results for the full year 2006. The meeting will take place today at Pavillon Gabriel, 5, avenue Gabriel, 75008 Paris and will start at 11:30 am (Paris time). Prepared remarks will be in French.

The company has also scheduled a conference call in English for today at 3:00 pm CET (2:00 pm GMT and 9:00 am New-York time). Callers may participate in the live conference call by dialling:

+44 (0) 207 365 1851 or +1 718 354 1152 or +33 1 70 99 42 86.

The slide show will be available on the web site at 10:00 CET (9:00 GMT).

Replays of the conference call will be available approximately 2 hours after the conclusion of the conference call until March 21, 2006 midnight by dialling:

+44 (0) 207 806 1970 or +1 718 354 11 12 or +33 1 71 23 02 48, access code: 5901847#.

About Gemalto

Gemalto (Euronext NL 0000400653 GTO) is a leader in digital security with pro forma 2006 annual revenues of €1.7 billion, operations in about 100 countries and over 10,000 employees including 1,500 R&D engineers.

In a world where the digital revolution is increasingly transforming our lives, Gemalto's solutions are designed to make personal digital interactions more convenient, secure and enjoyable.

Gemalto provides end-to-end digital security solutions, from the development of software applications through design and production of secure personal devices such as smart cards, SIMs, e-passports, and tokens to the management of deployment services for its customers.

More than a billion people worldwide use the company's products and services for telecommunications, financial services, e-government, identity management, multimedia content, digital rights management, IT security, mass transit and many other applications.

As the use of Gemalto's software and secure devices increases with the number of people interacting in the digital and wireless world, the company is poised to thrive over the coming years.

Gemalto was formed in June 2006 by the combination of Axalto and Gemplus.

*** Intangible assets identified and recognized in accordance with IFRS 3 Business Combination

Compared with the Adjusted pro forma income statement for the first half 2005 published in the appendix of the third quarter 2006 revenue press release, the following changes have been made:

- (a) An expense of €2.8 million representing the cost of the Customer service department in the period was reclassified from Cost of sales to Sales and marketing expenses.
- (b) Expenses of €0.5 million and €0.05 million, representing mainly the amortization of intangible assets of Setec recognized upon acquisition of this company by Gemplus in June 2005, and recorded in Cost of sales and Research and Engineering expenses, respectively, were cancelled.
- (c) An expense of €1.8 million for depreciation of an investment in an associate, recognized as a consequence of the combination with Gemplus, was cancelled.
- (d) An income tax expense of €0.6 million, related to the above changes, was recorded.
- (e) Other income net was adjusted by €0.5 million.
- (f) An income of €1.9 million related to the provision for bad debts was reclassified from General and administrative to Sales and marketing expenses.

(*) On March 11, 2005, Gemalto purchased the 49% minority interests in H.S.T.E., a company located in China of which Gemalto had owned 51% until then. A portion of H.S.T.E.'s business includes Schlumberger's public phones equipment business in China, which is not in the scope of Gemalto's operations. Pursuant to the Master Separation Agreement signed on March 19, 2004 between Schlumberger and Gemalto, Schlumberger has agreed to assume all the risks and rewards of past and future operations of the public phone equipment business in H.S.T.E. As a result, it was not considered appropriate to include the results of operations of the public phones equipment business in the income statement of Gemalto.
